

- blood vessel development
- response to growth factor
- NABA MATRISOME ASSOCIATED
- chemotaxis
- response to bacterium
- negative regulation of cell population proliferation
- circulatory system process
- muscle structure development
- regulation of system process
- response to peptide
- response to hypoxia
- regulation of inflammatory response
- MAPK cascade
- response to glucocorticoid
- endocytosis
- heart morphogenesis
- multicellular organismal homeostasis
- renal system development
- regulation of anatomical structure size
- NABA ECM AFFILIATED
